

Material group	45L/4525	Page 1 of 13
Product name	Envision (4525, GLYPHOSATE 450 g/l SL)	May 2017
Safety data sheet according to EU Reg. 1907/2006 as amended		Supersedes April 2016

SAFETY DATA SHEET

GLYPHOSATE 450 g/l SL

Revision: Sections containing a revision or new information are marked with a ♣.

♣ SECTION 1: IDENTIFICATION OF THE SUBSTANCE/MIXTURE AND OF THE COMPANY/UNDERTAKING

- 1.1. **Product identifier** **4525, GLYPHOSATE 450 g/l SL**
- Trade name **ENVISION**
- 1.2. **Relevant identified uses of the substance or mixture and uses advised against** Can be used as herbicide only.
- 1.3. **Details of the supplier of the safety data sheet** **CHEMINOVA A/S**, a subsidiary of FMC Corporation
 Thyborønvej 78
 DK-7673 Harboøre
 Denmark
SDS.Ronland@fmc.com
- 1.4. **Emergency telephone number**
Company (+45) 97 83 53 53 (24 h; for emergencies only)
- Medical emergencies:

Material group	45L/4525	Page 2 of 13
Product name	Envision (4525, GLYPHOSATE 450 g/l SL)	May 2017

SECTION 2: HAZARDS IDENTIFICATION

- 2.1. **Classification of the substance or mixture** None
- WHO classification Class U (Unlikely to present acute hazard in normal use)
- Health hazards The product has mildly irritating properties.
- Environmental hazards The product is a herbicide and is therefore expected to be harmful to all green plants.
- 2.2. **Label elements**
According to EU Reg. 1272/2008 as amended
- Product identifier 4525, Glyphosate 450 g/l SL
- Hazard pictograms None
- Signal word None
- Hazard statements None
- Precautionary statements None
- Supplementary hazard statements
- EUH210 Safety data sheet available on request.
- EUH401 To avoid risks to human health and the environment, comply with the instructions of use.
- 2.3. **Other hazards** None of the ingredients in the product meets the criteria for being PBT or vPvB.

SECTION 3: COMPOSITION/INFORMATION ON INGREDIENTS

- 3.1. **Substances** The product is a mixture, not a substance.
- 3.2. **Mixtures** See section 16 for full text of hazard statements.
- Active ingredient **Glyphosate, in the form of its isopropylamine salt**
- The product contains 607 g/l of the pure active ingredient glyphosate as its isopropylamine salt, equivalent to 450 g/l of the free acid glyphosate.
- Glyphosate** Content: 37% by weight
- CAS name Glycine, N-(phosphonomethyl)-
- CAS no. 1071-83-6
- IUPAC name(s) N-(Phosphonomethyl)glycine
- ISO name/EU name Glyphosate
- EC no. (EINECS no.) 213-997-4
- EU index no. 607-315-00-8
- Classification of the ingredient Eye damage: Category 1 (H318)
 Hazards to the aquatic environment, chronic: Category 2 (H411)

Material group	45L/4525	Page 3 of 13
Product name	Envision (4525, GLYPHOSATE 450 g/l SL)	May 2017

Structural formula

Glyphosate isopropylamine salt

Content: 51% by weight
 CAS name Glycine, N-(phosphonomethyl)-, compd. with 2-propanamine (1:1)
 CAS no. 38641-94-0
 IUPAC name
 EU name N-(phosphonomethyl)glycine, compound with 2-propylamine (1:1)
 Common name Glyphosate isopropylamine salt
 Other name(s) Glyphosate-isopropylammonium
 EC no. (EINECS no.) 254-056-8
 EU index no. 015-184-00-8
 Classification of the ingredient Hazards to the aquatic environment, chronic: Category 2 (H411)
 Structural formula

Reportable ingredients

	Content (% w/w)	CAS no.	EC no. (EINECS no.)	Classification
Poly(oxy-1,2-ethanediyl), α-phosphono-ω-butoxy-, isopropylamine salt	max. 4	431040-31-2	None	Skin Corr. 1C (H314)
2-(2-(2-Butoxyethoxy)ethoxy)ethanol	max. 1	143-22-6	205-592-6	Eye Dam. 1 (H318)
Alcohols, C8-10 (even numbered), ethoxylated	max. 1	71060-57-6	None	Acute Tox. 4 (H302) Eye Dam. 1 (H318)

SECTION 4: FIRST AID MEASURES

4.1. **Description of first aid measures**

Inhalation	If experiencing any discomfort, immediately remove from exposure. Light cases: Keep person under surveillance. Get medical attention immediately if symptoms develop. Serious cases: Get medical attention immediately or call for an ambulance.
Skin contact	Remove contaminated clothing and footwear. Flush skin with water. Wash with water and soap. See physician if irritation develops.
Eye contact	Immediately rinse eyes with much water or eyewash solution, occasionally opening eyelids, until no evidence of chemical remains. Remove contact lenses after a few minutes and rinse again. Get medical attention immediately.
Ingestion	Immediately rinse mouth and drink milk or water. Do not induce vomiting. If vomiting does occur, rinse mouth and drink fluids again. Call a doctor or get medical attention.

Material group	45L/4525	Page 4 of 13
Product name	Envision (4525, GLYPHOSATE 450 g/l SL)	May 2017

- 4.2. **Most important symptoms and effects, both acute and delayed** Primarily irritation.
- 4.3. **Indication of any immediate medical attention and special treatment needed** Immediate medical attention is required in case of eye contact.
- Note to physician The irritating effects of this product can be treated as usual against effects of acids or acid fumes. Probable mucosal damage may contraindicate the use of gastric lavage.

SECTION 5: FIRE-FIGHTING MEASURES
--

- 5.1. **Extinguishing media** Dry chemical or carbon dioxide for small fires, water spray or foam for large fires. Avoid heavy hose streams.
- 5.2. **Special hazards arising from the substance or mixture** The essential breakdown products are carbon monoxide, carbon dioxide, phosphorus pentoxide and nitrogen oxides
- 5.3. **Advice for firefighters** Use water spray to keep fire-exposed containers cool. Approach fire from upwind to avoid hazardous vapours and toxic decomposition products. Fight fire from protected location or maximum possible distance. Dike area to prevent water runoff. Firemen should wear self-contained breathing apparatus and protective clothing.

SECTION 6: ACCIDENTAL RELEASE MEASURES

- 6.1. **Personal precautions, protective equipment and emergency procedures** It is recommended to have a predetermined plan for the handling of spills. Empty, sealable vessels (not metal) for the collection of spills should be available.
- In case of large spill (involving 10 tonnes of the product or more):
1. use personal protection equipment; see section 8
 2. call emergency telephone no.; see section 1
 3. alert authorities.
- Observe all safety precautions when cleaning up spills. Use personal protection equipment. Depending on the magnitude of the spill this may mean wearing respirator, face mask or eye protection, chemical resistant clothing, gloves and boots.
- Stop the source of the spill immediately if safe to do so. Avoid and reduce mist formation as much as possible. Personal exposure by splashing must be avoided.
- 6.2. **Environmental precautions** Contain the spill to prevent any further contamination of surface, soil or water. Wash waters must be prevented from entering surface water drains. Uncontrolled discharge into water courses must be alerted to the appropriate regulatory body.

Material group	45L/4525	Page 5 of 13
Product name	Envision (4525, GLYPHOSATE 450 g/l SL)	May 2017

6.3. Methods and materials for containment and cleaning up

It is recommended to consider possibilities to prevent damaging effects of spills, such as bunding or capping. See GHS (Annex 4, Section 6).

If appropriate, surface water drains should be covered. Minor spills on the floor or other impervious surface should be absorbed onto an absorbent material such as universal binder, hydrated lime, bentonite, attapulgite or other absorbent clays. Collect the contaminated absorbent in suitable containers. Clean area with detergent and rinse with water. Absorb wash liquid with absorbent and transfer to suitable containers. The used containers should be properly closed and labelled.

Large spills which soak into the ground should be dug up and transferred to suitable containers.

Spills in water should be contained as much as possible by isolation of the contaminated water. The contaminated water must be collected and removed for treatment or disposal.

6.4. Reference to other sections

See subsection 8.2. for personal protection.
See section 13 for disposal.

SECTION 7: HANDLING AND STORAGE

7.1. Precautions for safe handling

In an industrial environment it is recommended to avoid all personal contact with the product, if possible by using closed systems with remote system control. The material should be handled by mechanical means as much as possible. Adequate ventilation or local exhaust ventilation is required. The exhaust gases should be filtered or treated otherwise. For personal protection in this situation, see section 8.

For its use as a pesticide, first look for precautions and personal protection measures on the officially approved label on the packaging or for other official guidance or policy in force. If these are lacking, see section 8.

Avoid contact with eyes, skin or clothing. Avoid breathing vapour or spray mist. Wash thoroughly after handling. Remove contaminated clothing immediately. Then wash thoroughly and put on clean clothing.

The product or its spray solutions should be stored in stainless steel, aluminium, fiberglass, plastic or plastic-lined containers only. See subsection 10.5.

Do not discharge to the environment. Do not contaminate water when disposing of equipment wash waters. Collect all waste material and remains from cleaning equipment, etc., and dispose of as hazardous waste. See section 13 for disposal.

Material group	45L/4525	Page 6 of 13
Product name	Envision (4525, GLYPHOSATE 450 g/l SL)	May 2017

7.2. Conditions for safe storage, including any incompatibilities

The product is stable under normal conditions of warehouse storage.

Store in closed, labelled containers. The storage room should be constructed of incombustible material, closed, dry, ventilated and with impermeable floor, without access of unauthorised persons or children. The room should only be used for storage of chemicals. Food, drink, feed and seed should not be present. A hand wash station should be available.

7.3. Specific end use(s)

This product is a registered pesticide, which may only be used for the applications it is registered for, in accordance with a label approved by the regulatory authorities.

SECTION 8: EXPOSURE CONTROLS/PERSONAL PROTECTION

8.1. Control parameters

To our knowledge, personal exposure limits have not been established for glyphosate or any other component in this product. However, personal exposure limits defined by local regulations may exist and must be observed.

Glyphosate free acid

DNEL, systemic 0.2 mg/kg bw/day
 PNEC, aquatic 0.028 mg/l

8.2. Exposure controls

When used in a closed system, personal protection equipment will not be required. The following is meant for other situations, when the use of a closed system is not possible, or when it is necessary to open the system. Consider the need to render equipment or piping systems non-hazardous before opening.

The precautions mentioned below are primarily meant for handling of the undiluted product and for preparing the spray solution, but can be recommended for spraying as well.

Respiratory protection

The product is not likely to present an airborne exposure concern during normal handling, but in the event of an accidental discharge of the material which produces a heavy vapour or mist, workers must put on officially approved respiratory protection equipment with a universal filter type including particle filter.

Protective gloves

Wear heavy duty, natural rubber gloves. The breakthrough times of these gloves for glyphosate are unknown, but it is expected that they will give adequate protection. It is recommended to limit the work to be done manually.

Eye protection

Wear safety glasses, goggles or face shield. It is recommended to have an eye wash fountain immediately available in the workplace when there is a potential for eye contact.

Material group	45L/4525	Page 7 of 13
Product name	Envision (4525, GLYPHOSATE 450 g/l SL)	May 2017

Other skin protection

Wear appropriate chemical resistant clothing to prevent skin contact depending on the extent of exposure. During most normal work situations where exposure to the material cannot be avoided for a limited time span, waterproof pants and apron of chemical resistant material or coveralls of polyethylene (PE) will be sufficient. Coveralls of PE must be discarded after use if contaminated. In cases of excessive or prolonged exposure, coveralls of barrier laminate may be required.

SECTION 9: PHYSICAL AND CHEMICAL PROPERTIES

9.1. Information on physical and chemical properties

Appearance	Yellow liquid
Odour	Slight amine-like odour
Odour threshold	Not determined
pH	Undiluted: 5.1 at 25°C 1% solution in water: 5.05 at 25°C
Melting point/freezing point	Below 0°C
Initial boiling point and boiling range	Above 100°C
Flash point	Above 100°C if any
Evaporation rate	Not determined
Flammability (solid/gas)	Not applicable (liquid)
Upper/lower flammability or explosive limits	Not determined
Vapour pressure	9.9 x 10 ³ Pa at 55°C
Vapour density	Not determined
Relative density	Not determined
Solubility(ies)	Density: 1.201 g/ml at 20°C Solubility of glyphosate isopropylamine salt at 20°C in dichloromethane 0.184 g/l methanol 15.88 g/l Solubility of glyphosate free acid in water: 10.5 g/l at 20°C.
Partition coefficient n-octanol/water	Glyphosate free acid: log K _{ow} = -3.3
Autoignition temperature	Not determined
Decomposition temperature	Not determined
Viscosity	126.7 mPa.s at 20°C
Explosive properties.....	Not explosive
Oxidising properties	Not oxidising

9.2. Other information

Miscibility	The product is miscible with water.
-------------------	-------------------------------------

SECTION 10: STABILITY AND REACTIVITY

10.1. Reactivity	To our knowledge, the product has no special reactivities.
10.2. Chemical stability	The product is stable during normal handling and storage at ambient temperatures.

Material group	45L/4525	Page 8 of 13
Product name	Envision (4525, GLYPHOSATE 450 g/l SL)	May 2017

- 10.3. **Possibility of hazardous reactions** None known
- 10.4. **Conditions to avoid** Heating of the product will produce harmful and irritant vapours.
- 10.5. **Materials to avoid** Do not store or mix this product in galvanised or unlined steel containers. Stainless steel may be used. The product or its spray solutions may react with such containers to produce hydrogen gas which could flash or explode if ignited.
- 10.6. **Hazardous decomposition products** See subsection 5.2.

SECTION 11: TOXICOLOGICAL INFORMATION
--

- 11.1. **Information on toxicological effects** * = Based on available data, the classification criteria are not met.

Product

Acute toxicity The product is practically non-toxic. * However, it should always be treated with the usual care of handling chemicals.

No significant adverse health effects are expected if only small amounts (less than a mouthful) are swallowed. Ingestion of similar formulations has been reported to produce gastrointestinal discomfort with nausea, vomiting and diarrhoea. Ingestion of large quantities of a similar product has been reported to result in hypotension and lung oedema.

The acute toxicity of the product is measured as:

- | | | |
|---------------------------------------|--------------|---|
| Route(s) of entry | - ingestion | LD ₅₀ , oral, rat: > 2000 mg/kg (method OECD 401) |
| | - skin | LD ₅₀ , dermal, rat: > 4000 mg/kg (method OECD 402) |
| | - inhalation | LC ₅₀ , inhalation, rat: > 4.72 mg/l/4 h (method OECD 403) (measured on a similar product; no signs of toxicity at this concentration) |
| Skin corrosion/irritation | | Not irritating to skin (method OECD 404). * |
| Serious eye damage/irritation | | Not irritating to eyes (method OECD 405). * |
| Respiratory or skin sensitisation ... | | Not sensitising (method OECD 406). * |
| Germ cell mutagenicity | | The product contains no ingredients known to be mutagenic. * |
| Carcinogenicity | | The product contains no ingredients known to be carcinogenic. * |
| Reproductive toxicity | | The product contains no ingredients known to have adverse effects on reproduction. * |
| STOT – single exposure | | To our knowledge, no specific effects have been observed after single exposure. * |

Material group	45L/4525	Page 9 of 13
Product name	Envision (4525, GLYPHOSATE 450 g/l SL)	May 2017

STOT – repeated exposure	The following has been measured on the active ingredient glyphosate: In long-term studies with glyphosate free acid, the first minor effects (body weight and liver weight changes) were noted in rats at exposure levels of 60 - 100 mg glyphosate/kg bw/day. No signs of toxicity were found at any level, including the highest exposure level of 4800 mg glyphosate/kg bw/day. *
Aspiration hazard	The product does not present an aspiration hazard. *
Symptoms and effects, acute and delayed	Mild irritation may occur.
<u><i>Glyphosate isopropylamine salt</i></u> Acute toxicity	The substance is practically non-toxic. *
The acute toxicity of the substance is measured as:	
Route(s) of entry	
- ingestion	LD ₅₀ , oral, rat: > 2000 mg/kg (method FIFRA 81.01)
- skin	LD ₅₀ , dermal, rat: > 4000 mg/kg (method FIFRA 81.02)
- inhalation	LC ₅₀ , inhalation, rat: > 4.72 mg/l/4 h (method FIFRA 81.03) (no signs of toxicity at this concentration)
Skin corrosion/irritation	Not irritating to skin (method FIFRA 81.05). *
Serious eye damage/irritation	Not irritating to eyes (method FIFRA 81.04). *
Respiratory or skin sensitisation ...	Not sensitising (method FIFRA 81.06). *
<u><i>Glyphosate</i></u> Toxicokinetics, metabolism and distribution	After oral intake, glyphosate is rapidly absorbed but only to a limited extent (approx. 30%). Metabolism is very limited and excretion is rapid and nearly complete. Distribution is generally low with residues occurring in all tissues. There is no evidence of accumulation.
Acute toxicity	The substance is practically non-toxic. * The acute toxicity of the substance is measured as:
Route(s) of entry	
- ingestion	LD ₅₀ , oral, rat: > 5000 mg/kg (method OECD 401)
- skin	LD ₅₀ , dermal, rat: > 2000 mg/kg (method OECD 402)
- inhalation	LC ₅₀ , inhalation, rat: > 5 mg/l/4 h (method OECD 403) (no signs of toxicity at this concentration)
Skin corrosion/irritation	Not irritating to skin (method FIFRA 81.05). *
Serious eye damage/irritation	Irritating to eyes (method FIFRA 81.04).
Respiratory or skin sensitisation ...	Not sensitising (method OECD 406). No allergic effects on humans have been reported. *

Material group	45L/4525	Page 10 of 13
Product name	Envision (4525, GLYPHOSATE 450 g/l SL)	May 2017

Carcinogenicity No indications of carcinogenic effects were found in 8 studies on glyphosate and no study on glyphosate itself has shown possible carcinogenic effects.

SECTION 12: ECOLOGICAL INFORMATION

12.1. **Toxicity** The product is a herbicide and therefore expected to be harmful to all green plants. The product is harmful to fish and aquatic invertebrates. It is considered as less harmful to birds and soil micro- and macroorganisms.

The ecotoxicity of the product is measured as:

- Fish Rainbow trout (*Oncorhynchus mykiss*) 96 h-LC₅₀: > 1000 mg/l
- Invertebrates Daphnids (*Daphnia magna*) 48 h-EC₅₀: > 1000 mg/l
- Algae Green algae (*Pseudokirchneriella subcapitata*) 72-h IC₅₀: 105.8 mg/l
- Plants Duckweed (*Lemna gibba*) 7-day NOEC: 3.19 mg/l
- Birds Japanese quail (*Coturnix coturnix japonica*) LD₅₀: > 3340 mg/kg
- Earthworms *Eisenia foetida* 14-day LD₅₀: > 10000 mg/kg soil
- Bees Honeybee (*Apis mellifera* africanised) LD₅₀, acute oral: > 100 µg/bee

12.2. **Persistence and degradability** **Glyphosate** is not readily biodegradable. It undergoes slow degradation in the environment and in waste water treatment plants. No adverse effects are found at concentrations up to 100 mg/l in waste water treatment plants. Degradation is mainly microbiological and aerobic, but anaerobic degradation does also occur.

Primary degradation half-lives in the environment vary much with circumstances, but are usually around 3 - 30 days in aerobic soil and water.

The product contains minor amounts of not readily biodegradable ingredients, which may not be degradable in a waste water treatment plant.

12.3. **Bioaccumulative potential** See section 9 for octanol-water partition coefficient.

Glyphosate is not expected to bioaccumulate. In several studies on bioaccumulation of glyphosate, both in marine and freshwater systems, only low bioaccumulation factors were found.

12.4. **Mobility in soil** In the environment **glyphosate** is not mobile, but is rapidly deactivated by adsorption to clay particles. Glyphosate binds strongly to soil.

Material group	45L/4525	Page 11 of 13
Product name	Envision (4525, GLYPHOSATE 450 g/l SL)	May 2017

12.5. **Results of PBT and vPvB assessment** The substance does not meet the criteria for being PBT or vPvB.

12.6. **Other adverse effects** Other relevant hazardous effects in the environment are not known.

SECTION 13: DISPOSAL CONSIDERATIONS

13.1. **Waste treatment methods** Remaining quantities of the material and empty but unclean packaging should be regarded as hazardous waste.

Disposal of waste and packagings must always be in accordance with all applicable local regulations.

Disposal of product According to the Waste Framework Directive (2008/98/EC), possibilities for reuse or reprocessing should first be considered. If this is not feasible, the material can be disposed of by removal to a licensed chemical destruction plant or by controlled incineration with flue gas scrubbing.

Do not contaminate water, foodstuffs, feed or seed by storage or disposal. Do not discharge to sewer systems.

Disposal of packaging It is recommended to consider possible ways of disposal in the following order:
 1. Reuse or recycling should first be considered. If offered for recycling, containers must be emptied and triply rinsed (or equivalent). Do not discharge rinsing water to sewer systems.
 2. Controlled incineration with flue gas scrubbing is possible for combustible packaging materials.
 3. Delivery of the packaging to a licensed service for disposal of hazardous waste.
 4. Disposal in a landfill or burning in open air should only occur as a last resort. For disposal in a landfill containers should be emptied completely, rinsed and punctured to make them unusable for other purposes. If burned, stay out of smoke.

♣ SECTION 14: TRANSPORT INFORMATION

ADR/RID/IMDG/IATA/ICAO classification

14.1. **UN number** Not classified as hazardous material for transport

14.2. **UN proper shipping name** Not applicable

14.3. **Transport hazard class(es)** Not applicable

14.4. **Packing group** Not applicable

14.5. **Environmental hazards** The product may be harmful in the environment.

Material group	45L/4525	Page 12 of 13
Product name	Envision (4525, GLYPHOSATE 450 g/l SL)	May 2017

14.6. **Special precautions for user** Avoid any unnecessary contact with the product. Misuse can result in damage to health. Do not discharge to the environment.

14.7. **Transport in bulk according to Annex II of MARPOL 73/78 and the IBC code** The product is not transported in bulk by ship.

♣ SECTION 15: REGULATORY INFORMATION

15.1. **Safety, health and environmental regulations/legislation specific for the substance or mixture** To our knowledge, no specific regulations apply.
 All ingredients are covered by EU chemical legislation.

15.2. **Chemical safety assessment** A chemical safety assessment is not required to be included for this product.

♣ SECTION 16: OTHER INFORMATION
